

SHANNON GROUP IS PROMISING PROPERTY

FORMER RESIDENT RETURNS FROM NEVADA

GLOBE, Ariz., Oct. 7.—The latest advices from the Shannon bear out the predictions that the property would gradually change from a high cost producer to a low cost producer, owing to the high grade of ore struck in the workings below the ore level. The north drift, 75 feet below the ore tunnel, continues in high grade ore. The shipments from this point during the week ending with September 15th, averaged 8 per cent copper, while the entire output averaged 5.11 per cent for the smelting ore and 3.4 per cent for the concentrating ore. This is a decided gain over anything heretofore made by the Shannon.

The developments in the El Paso, one of the company's mines, have been exceptionally favorable. The shipments from that mine for the week referred to, totalled 150 tons, which averaged 16 1/2 per cent copper and \$1.20 per ton in gold. It is expected to double the shipments from the El Paso next month, and if the present indications are borne out, the ore will be even richer than this month's shipments.

The management has been making a steady reduction in the cost of the output from month to month, and made a new record during August. The profits during that month were about \$30,000, and the cost of production at the mine was around 9 cents per pound, while adding the cost of refining, shipping, selling, etc., the cost of the copper sold and delivered was 10 1/2 cents. This shows the effects of the use of some of the high grade ore from the lower workings and from the El Paso, and as shipments of the high grade ore will be gradually increased, there should be a further reduction in costs.

The Shannon now has but one more payment of \$39,000 to make to clear off the old bonds entirely. This will leave outstanding the \$600,000 bonds issued to pay the cost of the railway, which are guaranteed by the Shannon company, but as the railway is earning more than the interest on the bonds, the interest charge will not be a burden on the company. The developments in the Shannon, beginning with the discovery of the ore bodies below the ore level, have added immensely to its value, and it is now one of the lowest priced stocks in comparison with its earning power.

Assuming that the Shannon's output from now on will not cost over 10 1/2 cents sold and delivered, and the prospects are that it will be lower, the company would net a profit of two cents per pound on a 12 1/2 cent copper market. On an output of 18,000,000 pounds, which is what the company is doing now, this would mean a profit of \$360,000, or well over \$1 per share per annum. Each additional cent on the price of copper would add better than 50 cents per share to the earnings, and a 14 cent market would mean earnings of better than \$2 per share.

POPULAR MINER

CALLED BY DEATH

(From Wednesday's Daily.)
According to a telegram received yesterday afternoon by Deputy Sheriff Keeler from W. C. Fennell at Stockton, Cal., Thomas Chidester died in that city Monday, no particulars being given of the fatal affliction. The receipt of this news will be generally regretted, and sorrow will be expressed that such an exemplary and popular man is no more. He was the soul of honor and had that genial fellowship that gave him an excellent name with all. He was for many years a resident of this section, and was at one time the foreman of the Senator mine, when Major Pickrell operated that property. Mr. Fennell, his brother-in-law, also being here at the time. Mr. Chidester left here about two years ago for California, in failing health, seeking a change of climate.

He was about 40 years old, and a native of Utah.

He leaves a wife to mourn his loss, and to whom the sympathy of all is extended in her sad bereavement. She is a sister of Mrs. Price Thompson of Humboldt.

A deed was filed for record yesterday from P. P. Cruise of this city to T. F. Shotwell of Detroit, Mich., for lot 10, in block 8, for a nominal sum. The property is situated on Mount Vernon avenue.

(From Saturday's Daily.)
John Shorb, until three years ago a resident of this county, and engaged in mining in the Bradshaw Mountains, arrived yesterday from Las Vegas, Searchlight and other Nevada towns. He states that the anti-gambling laws were put into effect all over that state on last Tuesday, and with few exceptions there was a general exodus to the Coast cities. He met Robert Pryor in the latter city and John H. Coyle, the latter engaged in mining. Charles Carruth, formerly of Jerome, a miner, was also seen. He has valuable interests near Searchlight, and has his properties under option for \$25,000. Mr. Shorb reports the mining outlook as gloomy, except with the larger companies. He will remain here.

COMPLETING SURVEY.

Engineer Clegg of the Territorial highway is nearing the end of his professional duties on the route from Flagstaff to Camp Verde, and will soon be succeeded by a road crew to make temporary repairs. It is said that he will be transferred later from Camp Verde to Prescott, and after the annual taxes for the year are received by the Territorial Treasurer an appropriation for that route will be authorized and the work started on the line of the survey. A strong effort will be made to have the Cherry Creek district placed on the line. This will be considered later by the Board of Control and Engineer Girard.

GRAND MATRON IS GIVEN CORDIAL WELCOME

(From Thursday's Daily.)
Mrs. George Olney of Safford, Ariz., Grand Matron of the Order of Eastern Star, arrived on the afternoon train from Los Angeles, Wednesday. She was met at the train by the following members of the local Chapter: Past Matrons Mrs. Harry T. Southworth and Miss Harriet Jean Oliver, Present Matron Mrs. J. H. Robinson, Associate Matron Mrs. W. H. Timmerhoff, and Adah, Mrs. J. R. Beatson. Mrs. Olney was taken in an auto to the Hotel Congress.

In the evening she was the motif for a theater party and supper, given by Mrs. Robinson and a few of the Sisters of the O. E. S. This morning she will be taken in an auto about the city, through the park and to Fort Whipple.

At 2 p. m. she will be entertained by the Eastern Star with a card party in the beautiful parlors of the Masonic Temple.

In the evening the work will be exemplified by the officers of the local Chapter, followed by a banquet and reception.

Mrs. Olney is the wife of George Olney, banker, cattle owner and former Supervisor of Safford, Gila county. She is also Grand Chief of the Pythian Sisters of Arizona. The Pythian Sisters of the local Temple sent her their greetings and a handsome floral offering. Mrs. Olney is on the annual tour of inspection and leaves here for Jerome, Flagstaff and Winslow.

SELLS TOBACCO TO BOYS AND IS FINED

M. Tominage, Japanese, proprietor of a store in the Wilson block, was arrested yesterday on the charge of selling cigarettes and tobacco to minors, and sentenced to pay a fine of \$50 by Justice of the Peace C. H. McLane.

Tominage entered a plea of not guilty. Several boys were examined testifying that he sold them and other youngsters tobacco and cigarettes at various times in the last two months. In default of the payment of the fine the Japanese tobacco vendor was remanded to the custody of the sheriff. Later in the afternoon he paid the fine and was released.

During the last few weeks parents of several boys have been conducting a quiet investigation in hopes of finding the person guilty of selling tobacco to their children. Yesterday morning it was learned that Tominage was the guilty one and a warrant was issued for his arrest. A number of youths who purchased tobacco from him were summoned as witnesses and testified that he sold them tobacco at various times.
